

ASTILLERO SENI  
SENI SHIPYARD

[WWW.SENI.COM.MX](http://WWW.SENI.COM.MX)

# ABOUT US

SENI is a company created in February 1980, with 100% of Mexican capital. We offer, supported by the knowledge and experience acquired by its group of professionals, a set of services to meet and rationally solve the needs and problems that arise in the shipbuilding industry, both new builds and repairs.

---

SENI, meets the theoretical maximum that a modern shipyard should not invest capital in equipment, infrastructure and accessories that can be acquired or outsourced externally, this means that a modern shipyard must devote itself to the basic and fundamental objective of building the hull, superstructure, structural elements and the installation of machinery and systems.

In this order of ideas the shipyard dedicates its efforts to manage, both the collection of the thousands of elements that, in the end, make up a ship, as well as its intelligent and effective integration into the systems that give meaning and direction to the project.

# OUR MISSION

To be a team committed to the development and creation of reliable, productive and quality solutions for our clients.

---

## OUR VISION.

Lead the construction and private naval repair in its area of influence, being a profitable company with defined strategies, infrastructure and qualified personnel.

---

## VALUE PROPOSAL.

Repair and shipbuilding on time and high quality, backed by more than 40 years of satisfied customers.

#### TEAMWORK.

Integration of a group of people to achieve a common goal based on communication, cooperation and respect.

#### RESPONSIBILITY.

Application of the values and capabilities of our staff to maximize the time and quality of the activities to be carried out.

#### COMMITMENT.

Perform the actions required to achieve the satisfaction of our customers and the development of the company.

#### WILLINGNESS TO CHANGE.

Positive attitude that allows the opening to new ways of thinking, planning and acting.

#### LOYALTY.

Assume the commitment acquired towards the person, team and company even in unfavorable situations.

**“OUR COMMITMENT IS WITH YOUR VESSEL”**

SENI has experience building aluminum and steel vessels.

We **have our own designs** and offer you our expertise if you have a requirement to build from either an external designer or a shipyard construction kit.

Advantages of having an external design include:

- + Client can source proven designs from a worldwide product range.
- + Design chosen by final user to meet specific requirements.
- + Approach client oriented towards specific preferences.

**NEW  
BUILDS**

## NEW BUILDS LAST 10 YEARS

	Hull Number	Ship's Name	I.A.C.S.	Client	Country	Hull fabricated	L.O.A.	Year built	Year launched
1	C-006	Fsiv Aramara	ABS	Bluemarine	Mexico	Aluminium	52 metros	2008	2010
2	C-007	Buoy Tender Virgo	G.L.	Ministry of Transportation	Mexico	Steel	35 metros	2009	2010

**ALUMINIUM**

# FSIV ARAMARA & LLUAVI

I.A.C.S. Class: ABS

Client. Blue Marine Technology Group

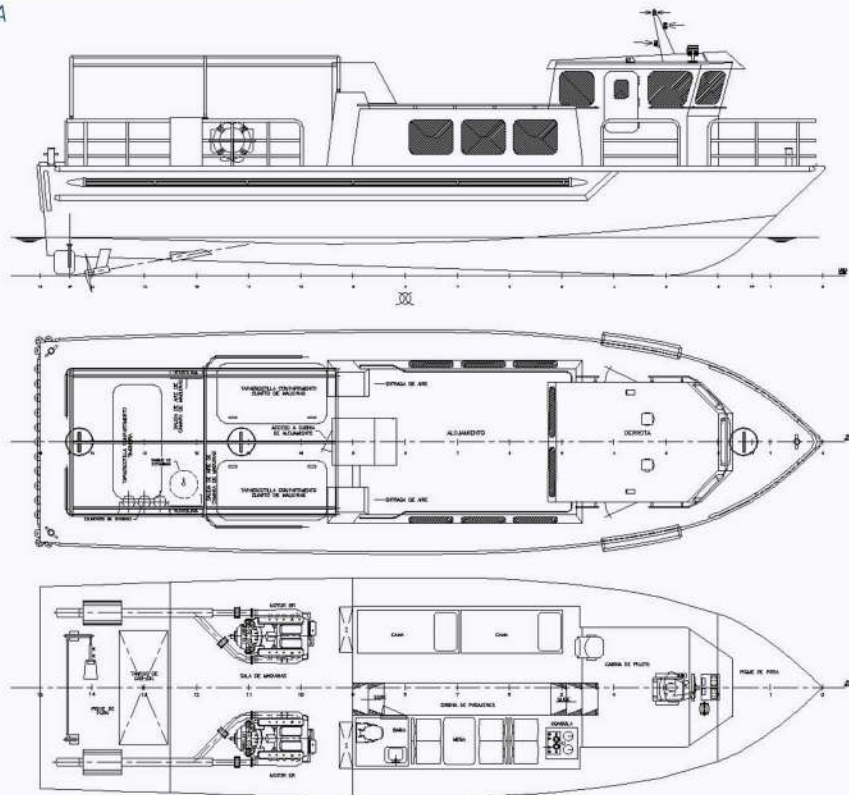

Vessels constructed	2
L.O.A.	52 m
Breadth	10 m
Draft	3.6 m
Speed	22 kts
Hull	Aluminium

Join Venture with Strategic Marine Australia Pty  
First boats built under class 100% Aluminium in Mexico

Client. PDVSA

Vessels constructed	4
L.O.A.	15 m
Breadth	4.2 m
Draft	1 m
Speed	25 kts
Hull	Aluminium

Hulls 010 to 013

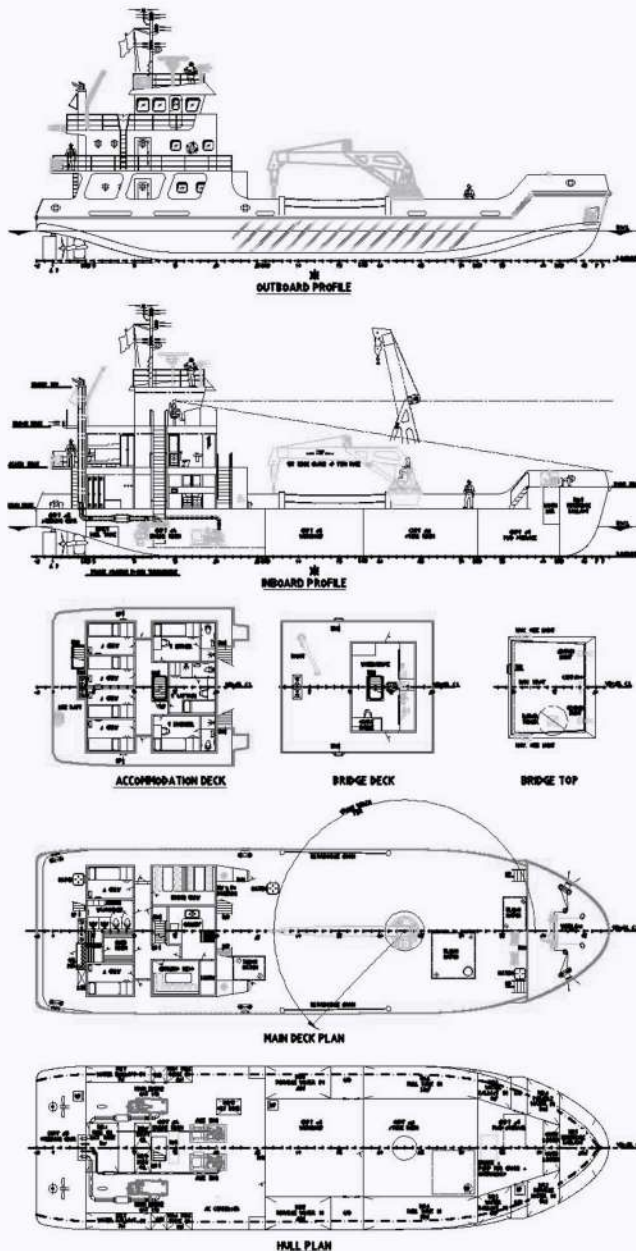

**STEEL**

# BUOY TENDERS VIRGO & SAGITARIO

I.A.C.S. Class: G.L.

Client. Secretaría de Comunicaciones y Transportes

## Buoy Tender-2

Vessels constructed	2
L.O.A.	35 m
Breadth	10 m
Draft	1.8 m
Speed	11 kts
Hull	Steel

Hulls 007 & 009

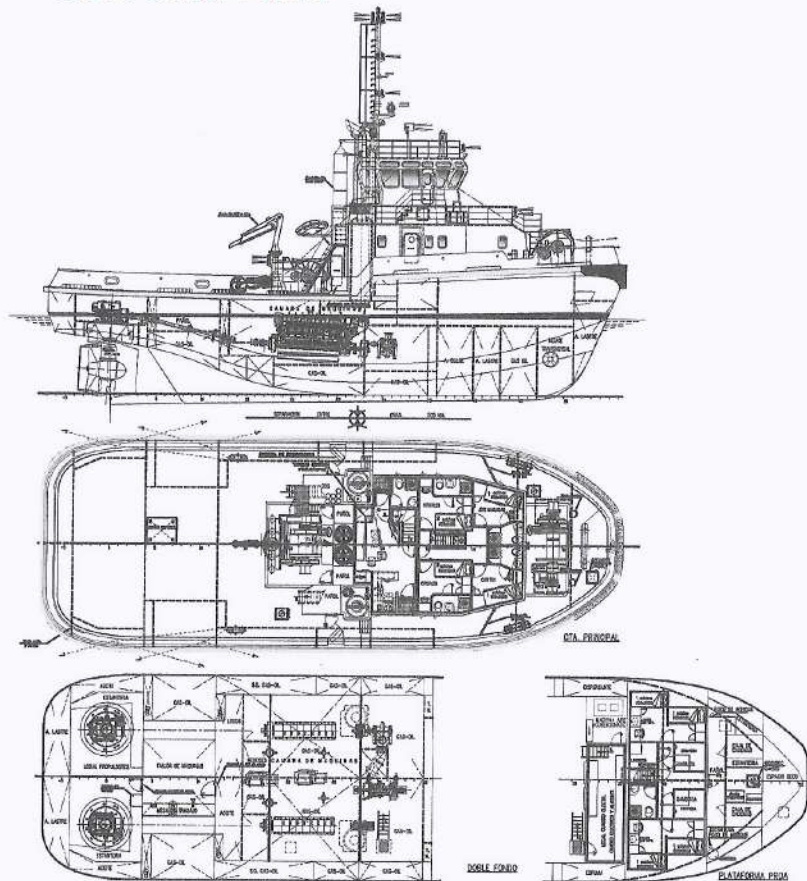

# ASD TUGS TEPEHUANO & MAZAHUA

I.A.C.S. Class: B.V.

Design. ARMON

Built with construction kit

Client. Semar-Pemex

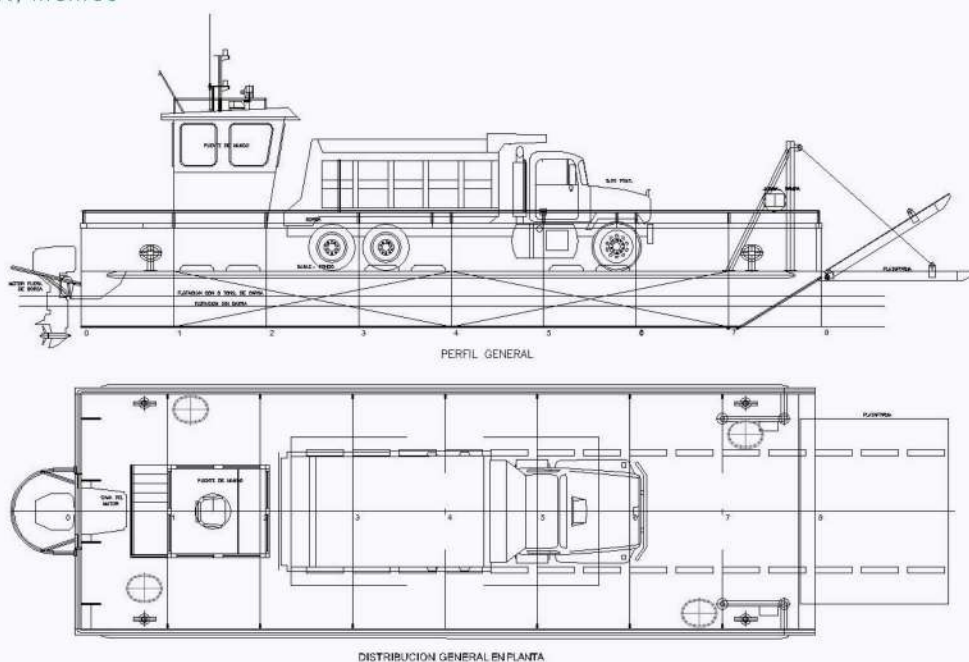

ASD Tug	
Vessels constructed	2
L.O.A.	31.5 m
Breadth	11.2 m
Draft	4.2 m
Speed	3.5 kts
Hull	Steel

Hulls 014 to 015

# LANDING CRAFT

Client. Municipio de La Yesca,  
Nayarit, Mexico

## Landing Craft

Vessels constructed	1
L.O.A.	12 m
Breadth	4 m
Draft	0.35 m
Speed	10 kts
Hull	Steel

Hulls 016

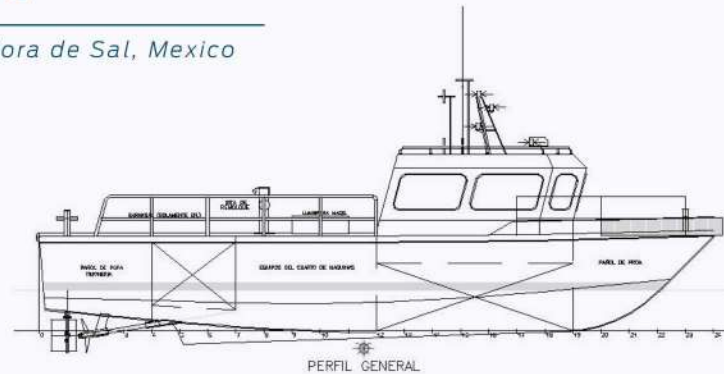

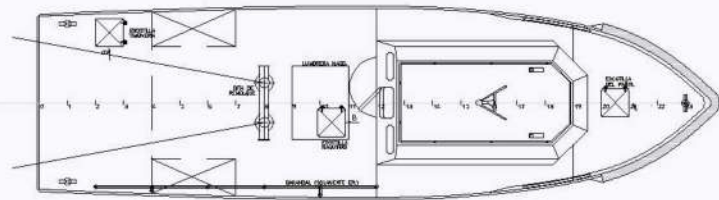

# AUXILIARY MANEUVERS BOAT

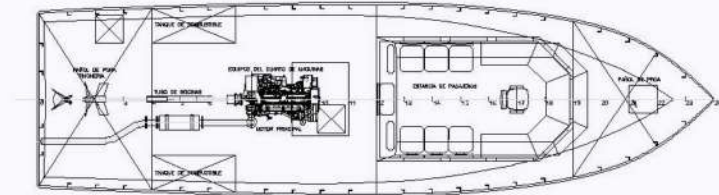

*Client. Exportadora de Sal, Mexico*

PERFIL GENERAL

DISTRIBUCION DE LA CUBIERTA

DISTRIBUCION DEL FONDO

## Maneuvers Auxiliary

Vessels constructed	1
L.O.A.	12 m
Breadth	3.36 m
Draft	0.41 m
Speed	12 kts
Hull	Steel

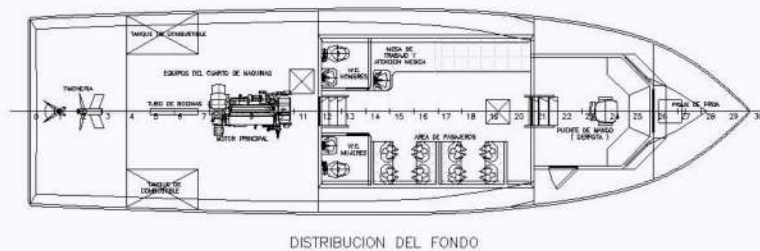

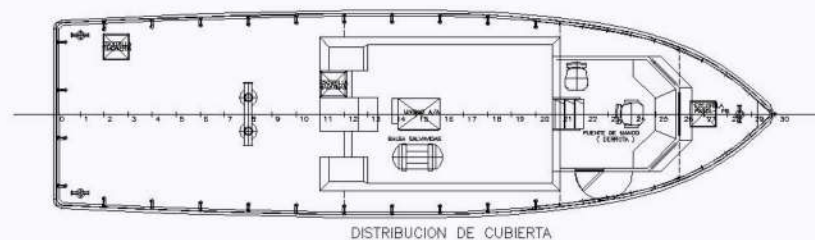

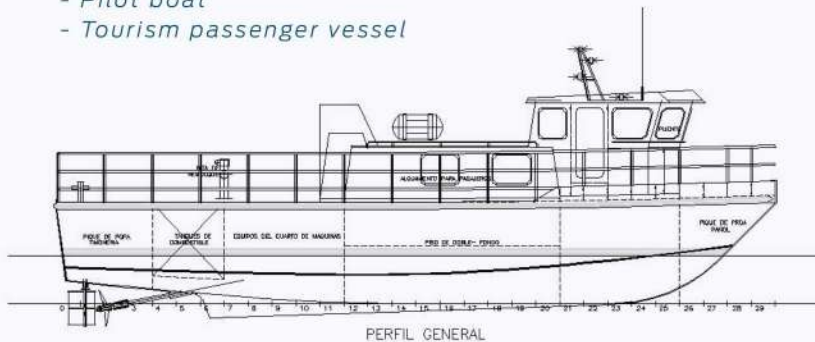

Hulls 018

# ON SALE! MULTI PURPOSE 15 M VESSEL

- Passenger and Cargo transport
- Auxiliary boat to assist on docking and undocking of ships
- Rescue Services
- Pilot boat
- Tourism passenger vessel

Length Overall	15 m
Beam Molded	4.20 m
Depth Amidships	2.10 m
Draft at lightship condition	1.00 m
Propulsion: Two (2) Cummins QSB 6.7- DM Marine diesel engines	
Designed speed	18 knots

Hulls 019
